7 April 1949

More Comments on the Dulles Report!

*DC/*  
We hope you can emphasize the following points at today's NSC meeting:-

1. CIA should have full and free access to all the material on hand in the different departments if it is to do a proper job. Sometimes material is NOT distributed to the Intelligence divisions within the Departments and thus does not get to CIA.
2. Coordination, if it is to be implemented, entails "direction", i.e., something more than "forth-right leadership." It is not just "cooperation" - as it is too often interpreted to be.
3. To comply with our requests for Intelligence from the President and NSC, CIA must be a producer, not just an assembly plant.

PRESCOTT CHILDS  
Chief, ICAPS
